

### How to: OPAC OTH Library Weiden

Via our library website (<https://www.oth-aw.de/bib>) you can access our library catalogue or OPAC (Online Public Access Catalogue). Here you can browse our library stacks, reserve books or order books via inter library loan.

You can also log into your library account. (When should I return my books? Can I renew the loan period?)

The screenshot shows the OPAC interface for OTH-Bibliothek Amberg-Weiden. At the top left is the OTH logo and the text 'OPAC Hochschulbibliothek Amberg-Weiden'. A navigation bar includes 'Search', 'My list', 'My details', and 'Additional services'. A 'Log in' button is circled in red. Below the navigation bar is a 'Search request' section with three search rows: 'and Title wissenschaftliches Arbeiten', 'and Author Lehmann', and 'and Subject'. A green box highlights the first row. To the right of the search rows is a 'Fragen?' icon and a green text box: 'recommended: Advanced Search, Title (type in title or keyword)'. Below the search rows are 'Clear' and 'Search' buttons. At the bottom is a 'Limit search' section with radio buttons for 'Exact words' (selected) and 'Find similar terms', and a dropdown for 'Current branch' set to 'OTH-Bibliothek Weiden'. An orange arrow points from the text box at the bottom right to the search input field for 'Lehmann'.

More possibilities for searching effectively:

Truncation using the asterisk (\*) is helpful if too few or no results at all are found:

e.g. „Kugel\*“ will show results for „Kugellager“, „Kugelradius“, Kugelschreiber“

→ There’s many possibilities for how the word you’re looking for might end — therefore you’ll get a wide range of results by using this method!

→ **Tip:** Start by truncating, then limit the number of results using filters (that way you’ll simultaneously get wide coverage while maintaining a manageable amount of results).

Good luck with your research! 😊
